

Smart Cash Handling

OptiCoin DNS

Standalone Coin Deposit System

The OptiCoin DNS is a professional, barrier-free coin deposit system for a wide range of applications. Due to its modular design, the system can be flexibly extended and it impresses with its high performance and low noise levels. The modular coin counting module combines reliability, speed and durability. Its clever and proven design supports convenient handling and easy maintenance. The Multi Cash sensor technology offers impressive performance and an outstanding TCO.

Powerful

The combination of robust construction and high performance technology ensures reliable and durable operation.

Flexible

Its sophisticated housing concept builds the base for quick and easy adaptation to the master system.

Sustainable

We take care of less resources in production. Thanks to low energy requirement, high capacities and stable operation our solutions supports the protection of the environment - even during operation.

Efficient

Innovative features support efficient system use. High availability and low TCO give a great impact.

Future-proof

Our technology is always "state of the art" and setting trends. Various options offer the necessary protection for your investment and ensure a long product life cycle.

Integrated

Various standardized integration options (e.g. XFS, MCRcf, etc.) allow the systems to be easily integrated into the customer application and to be monitored as required.

Careless

Physical security is based on clever housing designs and different locking options ensure carefree operation. Smart software solutions complete the comprehensive protection concept.

Proven

Thanks to our long-term employees our systems and solutions have been successfully maintaining their position on the global market since 1998.

Features & Options

Variants

- + Front-load
- + Semi-Rear-load
- + Special colours (RAL-colours)
- + Sidecar solutions for banknote processing
- + Wall mounting frame

Barrier-Free

- + EAA-compliant
- + Audio guidance
- + Labeling (tactile & Braille)
- + physical keyboard

Safety

- + Separate service- and coin-compartments
- + Coin compartment made of powder-coated 3 mm steel-sheet
- + Solid 3-point locking system

Display

- + 15" Touch TFT (Windows based)
- + 10,1" Touch TFT for Semi-Rear-load (additional display)

Customer Identification

- + NFC
- + Magnetkarte/Chip
- + RFID
- + Barcode/QR-Code
- + Keypad

Counting Technology

- + Counting speed up to 1.200 coins/minute
- + Pre-cleaning due to intelligent dirt-separators.
- + The Blockage Checker removes foreign objects automatically.
- + Multi Cash Sensor
- + ECB and Deutsche Bundesbank certified
- + Electromagnetic and capacitive coin detection
- + Matrix-sensor covering coin-characteristics
- + CCD-based diameter sensor

Coin Bin Solutions

- + Mobile coin trolley with a choice of 1,- 2-, 4- or 6-bin system
- + CIT-box-variants
- + Reusable bags or one-way bags (safe bags) possible
- + Draw bar for coin trolley

Printer

- + Graphics-capable thermal printer with cutter and barcode/QR code printing
- + 60 mm paper width

Processor

- + Industry-PC-system with Intel Celeron
- + TPM 2.0
- + Solid State Drive

Software

- + Windows™ (different versions)
- + XFS-, MCRcf-driver
- + MC Suite Package
- + MC2020 SelfService-Application
- + MC Monitoring Platform

Spezifikationen

- Dimensions: 485 x 607 x 1.459 mm
- Weight: 120 kg
- Standard Colour: RAL 9003/5004
