

OEM Solutions

# OEM basic

## Coin Counting Module

The OEM basic offers with its small dimensions a fully functional coin counting and deposit module with varying options. Due to its special self-cleaning mechanism, it is very resistant against foreign elements and dirt. The unit can be driven directly through its USB interface using one of the different available protocols for IT-integration. Innovative materials in industrial quality for coin-disk and coin-path ensure high counting speed - but on a low noise level.

### Powerful

The combination of robust construction and high performance technology ensures reliable and durable operation.

### Flexible

Its sophisticated housing concept builds the base for quick and easy adaptation to the master system.

### Sustainable

We take care of less resources in production. Thanks to low energy requirement, high capacities and stable operation our solutions supports the protection of the environment - even during operation.

### Efficient

Innovative features support efficient system use. High availability and low TCO give a great impact.

### Future-proof

Our technology is always "state of the art" and setting trends. Various options offer the necessary protection for your investment and ensure a long product life cycle.

### Integrated

Various standardized integration options (e.g. XFS, MCRcf, etc.) allow the systems to be easily integrated into the customer application and to be monitored as required.

### Careless

Well-engineered physical security features ensure reliable and smooth operation. Intelligent software solutions complement the security concept.

### Proven

Thanks to our long-term employees our systems and solutions have been successfully maintaining their position on the global market since 1998.

## Features & Options

### Counting Technology

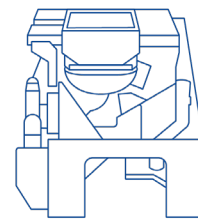

- + Counting speed up to 1.200 coins/minute
- + Pre-cleaning due to intelligent dirt-separators.
- + The Blockage Checker removes foreign objects automatically.
- + Multi Cash Sensor
- + ECB and Deutsche Bundesbank certified
- + Electromagnetic and capacitive coin detection
- + Matrix-sensor covering coin-characteristics
- + CCD-based diameter sensor

### Optional Items

- + Coin Tray (different variants)
- + Reject tray
- + Automatic rotator for multiple-coin-bin-solutions

### Software

- + XFS-, MCRcf-driver
- + MC Suite Package
- + MC Monitoring Platform

### Spezifikationen

Dimensions: 270 x 580 x 380 mm

Weight: 15,5 kg
